POTREBA PO SINERGIJAH

EU R&D Policy – Horizon 2020	EU Cohesion Policy
Differences	
<p>non-territorial approach, no pre-defined geographical distribution of funding</p>	<p>place-based approach; defined financial envelope for different eligible categories of regions</p>
<p>Based mainly on individual R&D Projects (to a certain extent also co-funding activities of programmes are supported) tackling the whole cycle of innovation from pre-competitive, leading edge basic research to demonstration projects, pilot activities, market replication as well as innovative public procurement and the award of prizes for the achievement of pre-specified targets.</p>	<p>Based on multiannual Programmes aiming at increased competitiveness through close to the market competitive R&D and innovation efforts</p>
<p>In general awarded directly to final beneficiaries like firms, public and private R&D centers, universities or research funding organisations (for ERA-net activities, Joint Programming etc.).</p>	<p>Awarded through shared management to national and regional public intermediaries</p>
Complementarities	
<p>Horizon 2020 focus is on tackling major societal challenges, maximising the competitiveness impact of research and innovation and raising and spreading levels of excellence in the research base</p>	<p>Cohesion policy focus is on galvanising smart specialisation that will act as a capacity building instrument, based on learning mechanisms and the creation of critical skills in regions and Member States. One of the expected results is to better ability to participate in Horizon 2020 and vice versa.</p>

SINERGIJE

- Izvajanje Obzorja 2020 preko čezmejnih raziskovalnih in inovacijskih aktivnosti, s poudarkom na družbenih in tehnoloških izzivih, ne glede na lokacijo.
- Strukturni skladi izvajajo v okviru regije/države, z namenom ustvarjanja rasti in novih delovnih mest, v okviru strategije pametne specializacije.

OSNOVA ZA ISKANJE SINERGIJ

- ✓ **Strategija pametne specializacije (ex-ante pogoj)**
- ✓ **Tematska koncentracija**
 - ne kot podaljšek prioriteta H2020
- ✓ **Raziskovalna in inovacijska strategija Slovenije 2011-2020**

SINERGIJE V PRAKSI

- **NALOGE DRŽAVE/REGIJE**
- potrebno ustvariti zadosten „prostor“ v Operativnih programih za vzpostavitev sinergij
- **NALOGE EVROPSKE KOMISIJE**
- priprava natančnih navodil za sinergije financiranja
 - dobre prakse,
 - treningi,
 - delovni programi, ...

NASTAVKI V OPERATIVNEM PROGRAMU 2014-2020

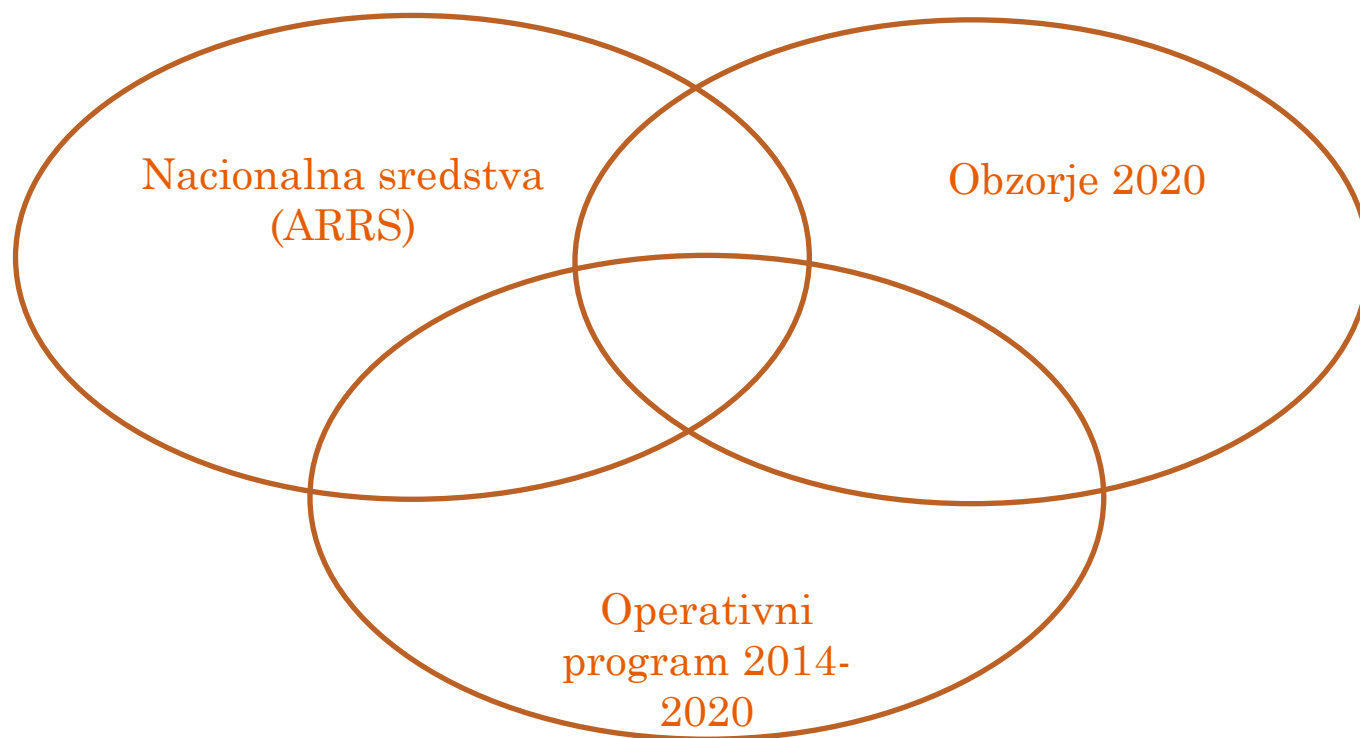

- Učinkovito vključevanje v mednarodne raziskovalne programe (vključno s H2020):
 - ERC
 - ERA-net
 - EIT (KICs)
 - Skupne programske pobude (JPI)
 - 185. in 187. člen PDEU

PRIMERI KOMBINIRANJA SREDSTEV

RISS

SPS

PRIMERI KOMBINIRANJA SREDSTEV

Primeri kombiniranega financiranja za raziskovalne in inovacijske projekte:

- 1. Vzporedna / dodatna / paralelna uporaba sredstev za projekt:** hkratna uporaba sredstev strukturnih skladov in Obzorja 2020 za financiranje različnih vrst stroškov enega projekta (npr. Teaming)
- 2. Zaporedna uporaba sredstev za projekt:** (časovno) zaporedna uporaba različnih sredstev enega projekta; npr. uporaba strukturnih skladov za izgradnjo infrastrukture in sredstev Obzorja 2020 za raziskovalne aktivnosti
